

## Chris Bosse

Chris Bosse brings a unique and diverse approach to design at PTW Architects. Chris was educated in Germany and Switzerland and worked in several high-profile European companies before joining PTW. His postgraduate degree at the University of Stuttgart dealt with the implication of virtual worlds into architecture.

Chris now contributes to the design of many projects at PTW including the National Swimming Centre for the Beijing Olympics in China and the Sydney Olympic Park Authority Site 9 Sports Building, both successful competition entries and currently under construction.
